

CERTIFICATE OF CONFORMITY

This is to certify that

The SUMNER Schist Cladding System

www.jas-anz.org/register

Product description

The SUMNER Schist Cladding System uses a fibre-cement sheet substrate, special stone adhesive, rigid plastic battens, and special fixings for the construction of wind and moisture resistant stone veneer claddings.

The SUMNER Schist Cladding System is intended to be installed over solid masonry, timber or light gauge steel framing.

Use of the SUMNER Schist Cladding System with other forms of substrate or components are outside the scope of this certificate, as specified in the SUMNER Schist Technical & Installation Manual dated 16 October 2014.

Product purpose or use

The SUMNER Schist Cladding System is used for the construction of wind and moisture resistant stone veneer claddings.
